Monticello Concrete \$600  
Standard (17") or short size (13")

Universal \$340  
Gray or white

# LYNCH & SONS

## URN CATALOG

Burying an urn in a cemetery is a favored choice for many families, providing a permanent resting place and focal point where family and friends can visit and remember a loved one for generations to come.

Lynch & Sons is able to assist those who cremate with all suitable methods of further disposition including burial of ashes in a family lot, entombment in a columbarium, division and distribution of ashes, scattering of ashes, and other methods of disposition.

Scattering can be a meaningful choice but it is an irreversible decision and the use of land may change over time. In order to ensure an enduring place for memorialization, some families scatter only a portion of the remains and keep the rest for permanent placement.

Some families place the urn in a columbarium niche, providing a location where they can pay their respects.

While some families take comfort in displaying an urn at home, considerations include divided families and long term custody of the remains.

\*Please note that cemetery requirements for the interment of ashes in a columbarium or in the ground varies greatly from place to place. It is important that the cemetery is consulted regarding these requirements before selecting an urn style or size.

*These prices are effective November 1, 2020. Prices are subject to change without notice.*
